

Due to house clearance, we have copies for sale of 'The Weald: A Geological Field Guide' by Wes Gibbons (1981). London: Unwin Paperbacks, 116 pp. This 190 x 130 mm book is a really useful illustrated guide to the geology and scenery of the Weald, introducing the geological story in four chapters and eleven geological itineraries, although you will need to check current access arrangements.

Condition as new from the publisher and unused, only £2.50 + £1.50 p&p (or collect from Chichester). Order from David Bone at david@dajbone.plus.com

Money raised goes to West Sussex Geological Society funds. A large number of second-hand geology books and maps are also available at competitive prices. Please send details of any requests and we will check availability.
