

# SALE OF SECOND-HAND GEOLOGICAL BOOKS

January 2021

Welcome to our first listing of second-hand geological books, resulting from the continuing lack of public events where these books are normally presented. Limanda Publishing is the trading name under which I self-publish my own local geology guides.

The collection of second-hand books started from donations to raise funds for the West Sussex Geological Society but has been increased by additional books personally obtained from house clearances, dealers, and auctions. Monies raised from the sale of the books is therefore allocated as identified for each item.

More book donations for the West Sussex Geological Society are always welcome.

## Condition notes

These are given as **a general indication only**, please ask if you want more details.

- Very good – in good clean condition
- Good – some wear and tear, may have an owner's signature / library stamps on flyleaf, etc. If that concerns you, please ask for more details
- Fair – more evidence of use, foxing and annotations may be present
- Poor – may be stained, sections loose, etc. but still usable

Hardbacks are without dust jacket unless stated.

## Ordering / more information

Please email to [david@dajbone.plus.com](mailto:david@dajbone.plus.com) quoting the book details and the reference number (REF-xxxx) given at the end of the item description.

## Prices and payment

Items are priced less than commercially available to clear stock, as well as raising funds for the West Sussex Geological Society. There is no point in having large numbers of books sitting around doing nothing! Prices are **exclusive of postage and packing** – please ask for a quote as sizes and weights vary considerably. Books can also be collected from 4 Kensington Road, Chichester, West Sussex PO19 7XR by prior arrangement.

Payment by bank transfer preferred, but cheque, cash or PayPal also accepted.
